

### Service Information

0818 numbers are non-geographic business numbers that can be dialled by the caller at the cost of a fixed/local call. 1800 numbers are non-geographic business numbers that can be dialled by the caller at no charge for the caller. International numbers are virtual numbers in various geographical locations that are routed to your phone system via the internet and allow callers to dial the number within their geographical area. ### Billing information

Services are supplied on a prepaid basis by default. New monthly subscription services are charged to the account balance on a pro-rata basis from the service start date till the end of the month. After this, your monthly subscription is charged at the start of each month. Call charges that are not included in or unlimited are charged to the account balance at the end of each call, making it possible for the account balance to go negative or below the assigned credit limit. Services unsubscribed during a billing period are non-refundable. We recommend setting up automatic

payments via our customer portal. Pre-paid billing requires you to maintain a positive account balance at all times, the service will be restricted automatically if you fail to maintain a positive account balance. Post-paid billing is available on request at the discretion of VoIPcloud. We invoice you at the start of each month and provide 14-day payment terms. A security deposit equal to one month's usage is required; if subscriptions and call charges increase over time VoIPcloud may request an increased security deposit to extend your post-paid billing credit limit. Non-payment and service suspension charges apply to post-paid billing accounts only. If your bill is overdue for over 7 days your account will be charged a €15.00 late payment fee. If your bill is overdue for over 30 days your account will be suspended and if your account is restored a €50.00 suspension fee upon restoration.
