Critical Information Summary

Toll Free 1800, Shared Cost 0818 & International Inbound Numbers

Service Information

0818 numbers are non-geographic business numbers that can be dialled by the caller at the cost of a fixed/local call. 1800 numbers are non-geographic business numbers that can be dialled by the caller at no charge for the caller. International numbers are virtual numbers in various geographical locations that are routed to your phone system via the internet and allow callers to dial the number within their geographical area. Calls are then directed using our Hosted PBX, following the call flow you configure. Incoming calls can be answered on a VoIP-compatible device (requires Hosted PBX or SIP Trunk service) using your internet connection or diverted to an external service number.

Included features

A full feature set is included; IVR menus, call queues, ring groups, voicemail to email, time-based routing and call recording to email and more. We constantly expand our feature set, view the complete feature list here. Customers have access to an online portal to configure their hosted PBX service call flow and check usage information.

Limitations

- 0818 and 1800 numbers are not SMS enabled.
- 0818 and 1800 numbers cannot be used as caller ID within Ireland.
- 0818 and 1800 numbers cannot be dialled from outside of Ireland. We recommend using a geographical number for your overseas customers.
- 0818 and 1800 numbers cannot accept calls from payphones.

Advanced features

Fax-to-email is €4.99 per fax-to-email PBX object per month. Integrations (CRM, API, Webhooks, Zapier) are €2.55 per user per month. All integration features are activated with one subscription for the entire account, with pricing calculated automatically based on user count. Call recording storage is purchased in <u>package</u> subscriptions paid monthly, with included minutes, excess usage applies.

Call diversions

Diversions from a user object are charged per the outbound call rate for the user's selected call plan.

No diversion charge to answer calls on VoIPcloud PBX or VoIPcloud SIP Trunk.

The following rates apply for diversions from a call diversion object: Diversions are charged per the outbound call rate of the PAYG Ireland call plan.

Additional pricing information

Minimum term: one month. Call plans have rounding of four decimal places, no flag fall or minimum call costs, no exit fees or early termination fees, and no set-up fees with no requirement to bundle anything with this service. The total cost of a number port is made up of a cost per number $\in \mathbb{R}$, added to the cost per port $\in \mathbb{R}$. For example: a single porting application with 5 numbers ($\in \mathbb{R}$ 22 + (\mathbb{R} 3) = $\in \mathbb{R}$ 62.00). A porting resubmission fee equivalent to the total cost of a number port may apply if a rejection occurs due to incorrect information provided by the customer. Activation, porting and rejection/resubmission pricing for international numbers can be provided by our number management team.

International destinations

International number activation and number porting fees vary.

International rates are subject to change without notice and are charged in 60-second increments. We block international destinations that have been identified as high-risk. If you require access to a particular high-risk destination, please contact support. A list of high-risk destinations can be found here.

Billing information

Services are supplied on a prepaid basis by default. New monthly subscription services are charged to your account pro-rata, from the service activation date to the end of that month. Any included value for services is also applied to your account proportionally for the same period. After this, your monthly subscription is charged at the start of each month. SMS charges that are not part of the included value are charged to the account balance after the message is sent, making it possible for the account balance to go negative or below the assigned credit limit. Services unsubscribed during a billing period are non-refundable. We recommend setting up automatic payments via our customer portal. Pre-paid billing requires you to maintain a positive account balance at all times, the service will be restricted automatically if you fail to maintain a positive account balance. Post-paid billing is available upon request and at VoIPcloud's discretion. For post-paid billing, invoices are
